

Friesian Stallion Selection Input Sheet

Mare's Linear Score Form Information

Mare's 9-digit life number	199901160
Height (cm; i.e., 160)	157
Kinship-Relationship %	18.1%

Personal Preference Input

Weenskje S.
Stb Ster

Line # Element - Characteristic

Score (5-45)

Breeding Improvement Priority (1,2,3,blank)

1	Head - plain / noble	35	
2	Head/neck connection - heavy / light	35	
3	Neck length - short / long	35	
4	Neck - horizontal / vertical	35	
5	Shoulder - steep / sloping	35	
6	Back - weak / tight	15	3
7	Loins - weak / tight	25	
8	Croup - straight/ sloping	25	
9	Croup Length - short / long	35	
10	Body - downhill/ upstanding	20	
11	Length of forearm - short / long	25	
12	Front leg(s) - straight/ standing under	20	
13	Hind leg(s) - sickle hocked / straight	25	
14	Pastern length - short / long	20	
15	Hoofs - small / large	30	
16	Quality of legs - course/ hard	30	
17	Color - faded black / jet-black	30	
18	Hair growth - little / much	30	
19	Walk correctness - toeing-in / toeing-out	30	
20	Walk length - short / long	20	1
21	Walk strength - weak / powerful	25	
22	Trot length - short / long	40	
23	Movement/impulse - weak / powerful	40	
24	Trot Balance - unbalanced/ balanced	40	
25	Trot Suppleness - not supple/ supple	40	
26	Height - short / tall		2

Based on the mare's linear score, input a:
1 for the categories that the mare requires the most improvement, a
2 for secondary improvement,
3 for minimal improvement, or
(blank) for no improvement consideration.

Appreciative Score

Score (3-9)

Racial type	7
Frame	6.5
Legwork	7
Walk	6.5
Trot	8

Comments:

Weenskje is a fine star mare with a very good trot. Very few mares receive an 8 for trot which makes pairing to stallions different than typical mainstream couplings.

The owner wishes to improve the walk, the height, while preserving the character. The walk is short is short which makes it the #1 priority. The mare is not tall; thus, height is the #2. The weak back needs to be a consideration and is the #3 priority. These improvements will support improvements in the frame (body) and the walk scores.

1-5

4

Breeding Goals (see below)

Y

Consider only US standing stallions (Y/N)

474

3-digit Stallion no. for report details

No.	Breeding Goal:	Objective:
1	Best Pleasure horse, all around correct horse for stb.	Fix all the shortcomings and make an all-around good horse. Typically used for a studbook or 3e mare to move offspring up 1 or 2 premiums.
2	Best 1st premie Weanling to sell	This is a short-term goal to make a great moving horse with a good neck and shoulder. Mare is typically a ster. The right combination may work for a 3e mare. Sport/dressage type receives favorable scores.
3	Best 1st premie Mare/Gelding adult	This is a long-term goal that makes a great moving, well-balanced horse that shows good in-hand.
4	Model Mare	This is also a long-term goal that must show good both in-hand and in performance (under saddle and driving).
5	Approved Stallion	Approved stallions require a strong exterior and sport score while equally propagating a wide range of stallion lines and pedigrees. Pay strong attention to rare or narrow stallion lines and full mare pedigrees.
